

Technology and the Morning Scramble

Written by Gayle Nobel

Thursday, 03 May 2012 19:42 -

I drove to Prescott, AZ last Friday to be on AZ TV's "The Morning Scramble". They mailed me the video clip since it was not online for viewing afterwards.

I had a few tech issues with getting it to YouTube. Ok, more than a few. I finally resorted to using my iPhone to video my laptop playing the interview. How's that for desperation?!? I could not get it to crop properly afterwards either. This is my way of apologizing for the quality. But I still want to share the interview. Here ya go.
